This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

ALUMNI RECORD

OF

DREW THEOLOGICAL SEMINARY

1867-1905

COMPILED BY THE
BIOGRAPHICAL SECRETARY
OF THE
ALUMNI ASSOCIATION

S. G. AYRES
MADISON, N. J. : : 1906

DEC 27 1960
(1404)

PRINTED AND BOUND BY
RUMFORD PRINTING COMPANY
CONCORD, N. H.

PREFACE

For the second time it has been my privilege to review the lives of the Alumni. The wonder is that out of so very many so few have gone astray. I doubt if from an equal number of names any other profession could furnish so many names of men who have run well. The men as a whole have had a fair measure of success, some more than others. Men of marked ability have not come to their own in some cases. Poor health is often the cause, an unfortunate temperament, a lack in understanding human nature, an untoward environment at start, one mistake made arousing the prejudices of men, an unfortunate marriage, all these are causes of failure. Not all seeming failures are to be counted failures.

The work involved in preparing this book is considerable. Nineteen hundred names are included in it. Information blanks were sent to all, to some for the third time without response. We then had to resort to our matriculation blanks, the conference minutes and the yearbooks of other denominations, and laboriously trace a man's career. My thanks are due to all the men who have kindly helped by furnishing data in regard to their own lives and those of their classmates. Also for the faithful clerical work of the students who have helped me in the preparation of the manuscript.

Long may the Seminary continue its work in teaching men and bringing them together to bind them in bonds of abiding friendship.

S. G. AYRES.
